

- **Value-oriented** – The ideal mix of quality, price and flexibility
- **Optimal Print Image** – Clean, glossy dye receptive surface
- **Durable** – Composite construction resists warpage and cracking
- **Versatile** – Available in a variety of configurations including custom HoloMark™, custom VeriMark™ and magnetic stripe.

DURABLE, HIGH QUALITY NON-TECHNOLOGY CARDS

As the first choice in non-technology cards for FARGO® and any other brand of card printers, UltraCard products are recommended for reverse-transfer printing, lamination and fluorescent panel ribbon printing applications. The UltraCard™ product line has a long-standing reputation among dealers and end-users for consistent quality in construction, providing maximum durability, flexibility and card life with optimal resolution print quality.

enables faster biodegradation for organizations seeking an environmentally friendly solution. While typical PVC cards take 20-25 years to decompose in landfill conditions, UltraCard Eco cards are reduced in 5-7 years. UltraCard Eco cards are ideal for abrasive, high-wear applications, enabling maximum card life while delivering superior glossy print quality and high flex/temp durability.

UltraCard™

Great for full-color photo IDs and loyalty cards, the UltraCard line is ideal for a wide range of card identity applications requiring a glossy, photo-quality finish. The durable low cost cards are manufactured to ensure clean, scratch-free cards for high-quality prints and extended printhead life.

UltraCard™ Premium

UltraCard Premium is the preferred card for High Definition Printing (HDP®) applications. The affordable and extremely durable UltraCard Premium is ideal for use with FARGO HDP5000 and other Direct-to-Card (DTC®) applications that require a higher quality card. Composite material construction provides for maximum durability, flexibility and card life with optimal resolution print quality for re-transfer printing, lamination and fluorescent panel ribbon printing applications.

UltraCard Eco™

Leveraging the trusted reliability and quality of the UltraCard brand, the UltraCard Eco is a non-technology card made with BIOPVC™, which
